Court hears arguments over citizenship question on census. WASHINGTON (AP) — Conservative Supreme Court justices were mostly silent Tuesday as a Trump administration lawyer defended the government's plan to ask about citizenship on the 2020 census, an indication the court's majority may be inclined to side with the administration.

Irreducible complexity (IC) involves the idea that certain biological systems cannot evolve by successive small modifications to pre-existing functional systems through natural selection. Irreducible complexity has become central to the creationist concept of intelligent design, but the scientific community, which regards intelligent design as pseudoscience, rejects the concept of irreducible ...

In grammar, a complement is a word, phrase or clause that is necessary to complete the meaning of a given expression. Complements are often also arguments (expressions that help complete the meaning of a predicate).. There are indicative as well as non-indicative complements in languages. Non-indicative complements follow the appropriate complementizers. ...

Universally Preferable Behaviour: A Rational Proof of Secular Ethics by Stefan Molyneux of Freedomain Radio attempts to answer the question: how can moral values really exist, and what are they?. Molyneux knows that "the odds that some guy out there on the Internet... has somehow solved the philosophical problem of the ages are not particularly high."
