The Advances in Computer Science : an International Journal (ACSIJ) is a well-established and notable venue for publishing high quality research papers as recognized by various universities and international professional bodies.

Advances in Computer Science : an International Journal

Several types of models are available to the acoustician for the study of room acoustics. Although mathematical modeling has now become popular, due to recent advances in computer technology, the author chose to use scale modeling techniques. A 1:10 scale model was constructed to study the sound field above the audience in a large lecture hall.
