Comprehensive Heterocyclic Chemistry II A

About this reference collection. This online Reference Module forms the definitive source for those entering, researching or teaching in any of the many disciplines making up this interdisciplinary area of study.

Curated Reference Collection in Chemistry, Molecular ...

The Reference Module in Chemistry, Molecular Sciences and Chemical Engineering covers all aspects of this interdisciplinary area of study. Overseen by Editor-in-Chief, Jan Reedijk, it contains 10 subsections, each coordinated by an expert subject editor. This Reference Module forms the definitive ...

WELCOME TO THE GUICHARD PEPTIDOMIMETIC CHEMISTRY GROUP WEBSITE. We are located in the European Institute of Chemistry and Biology on the Bordeaux-Pessac University Campus, south west of France. Our team is part of the unit "Chimie et Biologie des Membranes et nanoobjets" (), CNRS/University Bordeaux 1/ENITAB (UMR 5248). Our group's research focuses on the biomimetic chemistry of peptides ...

Histone deacetylases (HDACs), encompassing at least 18 members, are promising targets for anticancer drug discovery and development. To date, five histone deacetylase inhibitors (HDACis) have been approved for cancer treatment, and numerous others are undergoing clinical trials. It has been well validated that an agent that can simultaneously and effectively inhibit two or more targets may ...

Insights into N-Heterocyclic Carbene-Catalyzed Oxidative α -C(sp³)-H Activation of Aliphatic Aldehydes and Cascade [2 + 2] Cycloaddition with Ketimines

The Journal of Organic Chemistry (ACS Publications)

CHEM 164. Structural Biology of Viruses (4) (Cross-listed with BIMM 164.) An introduction to virus structures, how they are determined, and how they facilitate the various stages of the viral life cycle from host recognition and entry to replication, assembly, release, and transmission to uninfected host cells.

Chemistry and Biochemistry Courses

Pyridine-N-oxide is the heterocyclic compound with the formula C₅H₅NO. This colourless, hygroscopic solid is the product of the oxidation of pyridine. It was originally prepared using peroxyacids as the oxidising agent. The molecule is planar. The compound is used infrequently as an oxidizing reagent in organic synthesis. It also serves as a ligand in coordination chemistry.

Pyridine-N-oxide - Wikipedia

Isoquinoline is a heterocyclic aromatic organic compound. It is a structural isomer of quinoline. Isoquinoline and quinoline are benzopyridines, which are composed of a benzene ring fused to a pyridine ring. In a broader sense, the term isoquinoline is used to make reference to isoquinoline derivatives. 1-Benzylisoquinoline is the structural backbone in naturally occurring alkaloids including ...

Isoquinoline - Wikipedia

C.J. Burns, ... R.D. Rogers, in Comprehensive Coordination Chemistry II, 2003 3.3.2.2.3.(ii) Schiff base-derived ligands Schiff bases are macrocyclic or macro-acyclic ligands that typically contain both nitrogen and oxygen donors and are often polydentate in coordinating ability. However, the identity of the donor can be varied between sulfur, phosphorus, nitrogen, and oxygen to change the ...

Chemistry Journals Since 1995, this page has held one of the world's most comprehensive and up-to-date lists of internet-linked chemistry-related journals.

Chemistry Journals - University of Cambridge

A esta lista podría añadirse alguna revista dedicada a aspectos docentes como Anales de Química el Journal of Chemical Education o Education in Chemistry, que pueden resultar de ayuda sobre ciertos temas como, métodos de enseñanza, aspectos prácticos, etc., con un enfoque interesante desde el punto de vista pedagógico. Los contenidos de las revistas pueden adoptar tres tipos de formatos:
