Food Security And Food Safety

There is no food security without food safety. Food safety has to do with the quality of the food, not the quantity. If a person cannot eat the food they have, they have no food security. Food security requires that food be safe. The quality or sa...

What is the difference between food security and food safety?

If it is not safe, it is not food. This simple but profound statement highlights the huge role food safety plays in achieving food security. Most people think that food safety and management systems only apply to food manufacturers. In fact, the role of food safety is cross-cutting and should be adopted by all from farm to fork.

Food security and food safety - The Nation Online

Agriculture (USDA) has been protecting the Nation's food supply. This long history has allowed USDA's Food Safety and Inspection Service (FSIS) to develop the expertise and systems to protect our Nation's supply of meat, poultry, and egg products against intentional and unintentional contamination.

Food Safety and Food Security: What Consumers Need to Know

Food Safety and Food Security. The terms food safety and food quality sometimes appear confusing as food safety refers to all those hazards, whether chronic or acute, that may make food injurious to the health of the consumer. Food quality includes all other attributes that influence a product's value to the consumer.

Food Safety and Food Security - Food Safety Magazine

The conference includes sessions on: a) the burden of foodborne diseases; b) climate change and safe food systems; c) food safety and science, innovation and digital transformation; d) the benefits of investing in sustainable food safety systems; and f) empowering consumers to make healthy choices.

There Is No Food Security Without Food Safety | Agrilinks

When food becomes scarce, hygiene, safety and nutrition are often ignored as people shift to less nutritious diets and consume more 'unsafe foods' — in which chemical, microbiological, zoonotic and other hazards pose a health risk.
