

Globalization And The New City Migrants Minorities And Urban Transformations In Comparative Perspe

Globalization And The New City

Globalization, as a concept, refers both to the "shrinking" of the world and the increased consciousness of the world as a whole. It is a term used to describe the changes in societies and the world economy that are the result of dramatically increased cross-border trade, investment, and cultural exchange.

Globalization - New World Encyclopedia

A global city, also called world city or sometimes alpha city or world center, is a city which is a primary node in the global economic network. The concept comes from geography and urban studies, and the idea that globalization is created, facilitated, and enacted in strategic geographic locales according to a hierarchy of importance to the operation of the global system of finance and trade.
