### **Herodotus A Very Short Introduction**

Herodotus (c. 484 BC – c. 425 BC) was an ancient Greek historian who was born in Halicarnassus in the Persian Empire (modern-day Bodrum, Turkey). He is known for having written the book *The Histories*, a detailed record of his "inquiry" (ἱστορία *historía*) on the origins of the Greco-Persian Wars. He is widely considered to have been the first writer to have treated historical subjects ...

*The Histories of Herodotus* (trans Tom Holland). Viking. 880 pp. \$40.00. Published in Issue 36. For centuries, men of letters and plenty of his fellow historians took great pleasure in reducing the prototypical chronicler, Herodotus of Halicarnassus, to the status of a mere wonder-monger, the garrulous and credulous counter-weight to the austere objectivity of his younger contemporary and ...

The threads of geographical exploration are continuous and, being entwined one with another, are difficult to separate. Three major phases of investigation may nevertheless be distinguished. The first phase is the exploration of the Old World centred on the Mediterranean Sea, the second is the so-called Age of Discovery, during which, in the search for sea routes to Cathay (the name by which ...

Moral Relativism. Moral relativism is the view that moral judgments are true or false only relative to some particular standpoint (for instance, that of a culture or a historical period) and that no standpoint is uniquely privileged over all others. It has often been associated with other claims about morality: notably, the thesis that different cultures often exhibit radically different moral ...

As mentioned in the preface, Old Testament history clusters around two "watersheds," the Exodus from Egypt and the Exile to Babylon. All five of the books we are studying were written in Judah during what is known as the Post-Exilic Period, that is, the hundred years or so that follows the return from exile in Babylon that began about 537 BC.

History is a word of multiple meanings, all related to the past. When used as the name of a field of study, history traditionally refers to the study and interpretation of the written record of past human activity, people, societies, and civilizations leading up to the present day. More broadly, as explained in the 1911 Encyclopædia Britannica, "history in the wider sense is all that has ...
