Information Processing In Computer Assisted

The 10th International Conference on Information Processing in Computer-Assisted Interventions. June 18-19, 2019: Rennes, France. Find Out More

IPCAI: International Conference on Information Processing ...

Computer-assisted translation, computer-aided translation or CAT is a form of language translation in which a human translator uses computer hardware to support and facilitate the translation process.. Computer-assisted translation is sometimes called machine-assisted, or machine-aided, translation (not to be confused with machine translation)

Computer-assisted translation - Wikipedia

Computer-assisted surgery (CAS) represents a surgical concept and set of methods, that use computer technology for surgical planning, and for guiding or performing surgical interventions.CAS is also known as computer-aided surgery, computer-assisted intervention, image-guided surgery and surgical navigation, but these are terms that are more or less synonymous with CAS.

Computer-assisted surgery - Wikipedia

Computer Assisted Coding. Applying Useful Technology to the Revenue Cycle Puzzle. Through a partnership with Artificial Medical Intelligence (AMI), Diskriter offers a leading Computer Assisted Coding (CAC) platform. EMscribe® is a CAC application that has been successfully installed and used at hundreds of hospitals in the U.S.
