The Challenge Of Development Theory

History. The earliest manifestation of student development theory — or tradition — in Europe was in loco parentis. Loosely translated, this concept refers to the manner in which children's schools acted on behalf of and in partnership with parents for the moral and ethical development and improvement of students' character development. Ostensibly this instruction emphasized traditional ...

Postdevelopment theory (also post-development or anti-development or development criticism) holds that the whole concept and practice of development is a reflection of Western-Northern hegemony over the rest of the world. Postdevelopment thought arose in the 1980s out of criticisms voiced against development projects and development theory, which justified them.

Erik Erikson was a follower of Sigmund Freud who broke with his teacher over the fundamental point of what motivates or drives human behavior. For Freud it was biology, or more specifically, the biological instincts of life and aggression. For Erikson, who was not trained in biology and/or the medical sciences (unlike Freud and many of his contemporaries), the most important force driving ...
