The Lazarus sign or Lazarus reflex is a reflex movement in brain-dead or brainstem failure patients, which causes them to briefly raise their arms and drop them crossed on their chests (in a position similar to some Egyptian mummies). The phenomenon is named after the Biblical figure Lazarus of Bethany, whom Jesus raised from the dead in the Gospel of John

Question: "What does it mean that the dead know nothing (Ecclesiastes 9:5)?" Answer: Ecclesiastes 9:5 reads, "For the living know that they will die, / but the dead know nothing; / they have no further reward, / and even their name is forgotten." This verse is sometimes used as a proof text for annihilationism, but that concept is not what is being communicated here.
